Avocado Toast with a Twist: Simple & Elegant

[INGREDIENTS] Original Ingredients

avocado, bread

[SHOPPING] Ingredients

* 1 ripe avocado 2 slices of your favorite bread (sourdough or whole wheat recommended)

[CHEF] Instructions

Step 1:

Toast the Bread: Preheat your oven's broiler or a toaster to medium-high heat. Toast the bread slices until golden brown and slightly crisp. The level of crispness is a matter of personal preference.

Step 2:

Prepare the Avocado: Cut the avocado in half lengthwise. Remove the pit. Using a fork, gently mash the avocado flesh directly in the avocado skin. Avoid over-mashing; you want some chunky bits remaining for texture.

Step 3:

Assemble the Toast: Spread the mashed avocado evenly onto the toasted bread slices.

Step 4:

Optional Enhancements (While not included in the ingredient list, these suggestions elevate the dish): A sprinkle of flaky sea salt enhances the avocado's flavor. A drizzle of high-quality olive oil adds richness. A crack of freshly ground black pepper provides a subtle kick.
